

BellaTek®
Gold-Colored Nitride-Coated Abutments

Optimization By Design®

BellaTek Gold-Colored Nitride-Coated Abutments

A Customized Solution for the Highly Aesthetic Results Your Patients Desire

Versatility

- The strength of titanium provides a solution for cases when angle corrections are needed in the anterior.

Enhanced Aesthetics

- Gold-colored titanium nitride coating creates a warm hue through the gingiva.

Customized Restorations

- BellaTek Custom Abutments are exclusively designed to match each patient's tooth anatomy, producing a natural emergence profile through the soft tissue.

BellaTek® Clinical Case Presentation

Clinical Treatment by Dr. Christopher Ramsey†, Jupiter, FL, USA

Fig. 1

A 35-year-old female patient presented with an unsatisfactory provisional restoration on teeth numbers 11-14.

Fig. 2

Clinical situation post-orthodontics and removal of the provisional restoration.

Fig. 3

A Biomet 3i Full Osseotite® Tapered Implant and BellaTek Encode® Healing Abutment were placed.

Fig. 4

IPS e.max® glass ceramic crowns and a BellaTek Gold-Colored Nitride-Coated Abutment were fabricated.

Fig. 5

The crowns for the natural teeth and the implant on the master cast.

Fig. 6

Final result showing the same aesthetic value on the natural tooth restorations and the implant supported restoration.

Fig. 7

Periapical radiograph taken at three months, 30 days after cementation.
