## ZIMVIE DENTAL BUSINESS

ZimVie Dental is a worldwide leader in comprehensive tooth replacement and rehabilitation solutions.

### WE ARE COMMITTED TO:

- Helping clinicians achieve exceptional outcomes for their patients
- Innovating state-of-the-art solutions backed by science, technology, and superior craftsmanship
- Leading the industry in educational experiences
- Delivering responsive, personalized service
- Improving quality of life for people around the world

## OUR SOLUTIONS

### SURGICAL

A comprehensive portfolio offering a variety of innovative surgical solutions, including dental implants, precision site preparation tools, and fully guided surgery systems.

### DIGITAL DENTISTRY

Committed to delivering end-to-end solutions ranging from intraoral scanning technology to open architecture CAD/CAM systems, guided surgery solutions, and patient-specific abutments.

### RESTORATIVE

Providing high-quality, versatile prosthetic components for all types of implant restorations, including a full line of abutments in a variety of materials, as well as bars, screw-retained bridges, and overdenture components.

### REGENERATIVE

Extensive breadth of biomaterials for hard- and soft-tissue regeneration that includes allografts, xenografts and synthetic bone substitutes, resorbable collagen and non-resorbable barrier membranes and meshes, tissue matrices, and dental wound dressings.

## MEDICAL EDUCATION

### Six ZimVie Institute Global Facilities

- Global Symposiums
- Hands-on Workshops
- Cadaver Courses
- Technology Forums
- Regional Programs
- On-Demand and Live, Multi-language CE Virtual Programs
- Residency and Predoctoral Programs
- 109,000 Medical Education Registrations in 2021
- 30,000 Active Dental App Users

### AT A GLANCE:

**2,000+**

Team members worldwide

**500+**

Peer-reviewed articles

**400+**

Active patents globally

Headquartered in Palm Beach Gardens, FL, USA

## ZIMVIE SPINE BUSINESS

ZimVie Spine is a worldwide leader providing innovative options backed by compelling clinical evidence to treat a broad spectrum of spinal pathologies.

### WE ARE COMMITTED TO:

- Reducing pain, increasing mobility, and restoring function to daily life
- Serving the needs of surgeons to best care for their patients
- Providing best-in-class medical education for surgeons
- Challenging existing treatment paradigms with innovative solutions
- Optimizing healthcare delivery for various sites of care, including ambulatory surgery centers (ASCs)

## OUR SOLUTIONS

### MOTION PRESERVATION

Non-fusion alternatives to restore mobility, including cervical disc replacement to treat cervical disc disease and first-to-market non-fusion tethering technology to treat pediatric scoliosis.

### MIS PROCEDURAL SOLUTIONS

Total procedural solutions for minimally invasive surgical approaches, including spinal implants, instrumentation, and biologics.

### CORE & COMPLEX SOLUTIONS

Full portfolio of spinal fusion implants, instrumentation, and biologics to treat a broad spectrum of spinal pathologies.

### EBI BONE HEALING

Comprehensive portfolio of technologies to promote bone healing through non-invasive, non-surgical, and surgically implantable options.

## LONG-TERM CLINICAL EVIDENCE

Leveraging peer-reviewed data to improve patient access to innovative approaches for spine treatment

Our established clinical evidence includes statistically significant proven benefits of Mobi-C® for two-level cervical disc replacement versus fusion and over seven years of clinical data supporting The Tether™. Levering this, we will:

- Deliver surgeon and patient education programs built on clinical performance
- Inform patients and create demand via awareness campaigns and direct-to-patient marketing
- Equip skilled sales representatives to create and expand markets based on proven clinical benefits
- Use data and advocacy to improve patient access to innovative treatment options
- Challenge existing treatment paradigms with clinically supported innovation
- Promote healthcare delivery in optimized sites of care, including ambulatory surgery centers (ASCs)
- Utilize the established and proven clinical track record of electronic bone growth therapy to aid spine fusion or fracture non-unions
